

CURRICULUM VITAE

Full name: Dr Martin Cryer
Present position: Science Manager, Aquatic Environment
Present employer: Ministry for Primary Industries
Present work address: Ministry for Primary Industries, PO Box 2526, Wellington
Telephone: Work DDI 04-8194253
Email: Work martin.cryer@mpi.govt.nz

Academic qualifications:

1983 PhD, University of East Anglia, UK, Freshwater Fisheries Ecology
1979 BTech (Hons, 1st class), University of Bradford, UK, Applied Ecology
1975 4 GCE (UK) Advanced level passes (grades A, A, B, C)
1973 10 GCE (UK) Ordinary level passes (grades 1, 1, 2, 2, 2, 3, 3, 3, 4, 6)

Other key qualifications:

2014 (most recent) St John's: Workplace first aid
2001 Department of Labour (OSH): Occupational diver, research
1998 Coastguard Boating Education: Engine maintenance (outboards)
1992 Coastguard Boating Education: Boatmaster
1988 Department of Conservation; Basic forest fire fighting
1987 MAF Fisheries: Scientific diver
1987 PADI: Rescue diver and Master SCUBA diver
1987 NZ Post Office: Restricted radiotelephone licence
1986 New Zealand firearms licence
1985 UK drivers licence (clean)
1985 Institute of Fisheries Management (UK): Certificate of professional competence.
1983 New Zealand Underwater Association: Open water diver
1983 New Zealand driver's licence (clean)

Years as a practising researcher: 35 (31 postdoctoral)

Honours/distinctions/membership of societies, institutions, committees:

Member, interim science management group for the Sustainable Seas National Science Challenge (2014–)
Member, United Nations Food & Agriculture Organisation Pool of Experts for the First World Ocean Assessment (2013–)
Member, British Ecological Society Grants and Scholarship Review College (2012–)
Member, NIWA's Coasts & Oceans Science Advisory Panel (2011–)
Honorary Research Associate and PhD supervisor, School of Biological Sciences, Victoria University of Wellington (2011–)
Member, FRST-Antarctica NZ Independent Review Panel for Antarctic Research Proposals (2009 and 2010).
Chair, Ministry of Fisheries Aquatic Environment Research Advisory Group for provisional ten-year research programme (2009–).
Member, Ministry of Fisheries Review Panel for draft Fisheries Plans (2007–2008).
Member, Science Working Group and Deepwater Subgroup, Negotiations for a South Pacific Regional Fisheries Management Organisation (2007–2010).
Member, Governance Groups, NIWA's "Marine Biodiversity & Biosecurity" and "Coasts & Oceans" Outcome Based Investments (OBIs) (2005–2011).
Member, Coastal Technical Advisory Group, NIWA's "Marine Biodiversity & Biosecurity" and "Coasts & Oceans" OBIs (2005–2009).

Member and occasional Chair (since 2006), Ministry of Fisheries Shellfish, Biodiversity, and Marine Amateur (Recreational) Fisheries Working Groups and Research Planning Groups (2000–).

Convenor and Chair, Ministry of Fisheries Aquatic Environment Working Group and Aquatic Environment Research Planning Group (2005–2014) (member since inception in ~1998).

Member, NIWA Diving Control Board (2001–2005).

Membership of professional societies:

- American Academy of Underwater Sciences (2002–2006).
- New Zealand Marine Sciences Society (1990–) (Council member 2003–2007).
- British Ecological Society (1985–),
- Fisheries Society of the British Isles (1985–1995),
- New Zealand Limnological Society (1983–1995),

National Research Advisory Council (NZ) Postdoctoral Research Fellowship (1986–1990).

Hillary Jolly (NZ) Postdoctoral Research Fellowship (1983–1984).

Royal Society (UK) Research Travel Grant (1983).

Senate Disciplinary Committee and Senate Disciplinary Appeals Committees, University of East Anglia (1980–1983).

Natural Environment Research Council (NERC, UK) Postgraduate Research Appeals Grant (1979–1983).

Professional positions held:

2005–	Science Manager, Aquatic Environment, Ministry of Fisheries (now Ministry for Primary Industries), Wellington: research portfolio management for aquatic environment and biodiversity issues, contribution / backup on shellfish stock assessment and recreational fisheries research as required, liaison with other departments, mentoring and intellectual leadership (5–6 direct reports).
2004–2005	Science Leader, Shellfisheries & Effects of Fishing, NIWA, Auckland: fisheries stock assessment (especially shellfish) and other fisheries and fishing effects research, mentoring and intellectual leadership (company-wide, no direct reports).
2000–2004	Principal Scientist, Fisheries & Marine Ecology, NIWA, Auckland: fisheries stock assessment (especially shellfish) and other fisheries and fishing effects research, including group leadership (~12 direct reports).
1995–2000	Scientist/Project Director, NIWA, Auckland: fisheries stock assessment (especially shellfish) and other fisheries research, including group leadership (7–9 direct reports).
1990–1995	Fisheries Management Scientist, MAF Fisheries Auckland: fisheries stock assessment research (especially shellfish), policy advice, fisheries management implementation, group leadership (3–8 direct reports).
1986–1990	Postdoctoral Research Scientist, NZ Wildlife Service (Department of Internal Affairs), then Department of Conservation, Turangi, NZ: fisheries stock assessment for rainbow trout in Lake Taupo, also occasional work on departmental priorities including rural fire fighting, biosecurity issues, wild animal control, etc.
1984–1985	Research Supervisor (8 direct reports), University of Wales Institute of Science & Technology, Cardiff, UK: effects of marine and freshwater recreational fishers on wildlife and site amenity.
1983–1984	Postdoctoral Research Scientist, Waikato University, Hamilton, NZ: predator-prey relations of rainbow trout in contrasting Rotorua and Waikato lakes.
1979–1983	Postgraduate Research Scientist, University of East Anglia, Norwich, UK: zooplankton population dynamics and predator-prey relations with fish in shallow Norfolk lakes.
1977–1978	Assistant Scientific Officer, Ministry of Agriculture Fisheries & Food, Lowestoft, UK: fisheries research on recruitment dynamics in edible crabs.

Present research/professional speciality:

My current role is to oversee the design, commissioning, review, and publication of results from the Ministry's research portfolios on aquatic environment issues and marine biodiversity to ensure these research programmes are strategically aligned with the Ministry's and Government's future information needs. This involves substantial consultation and liaison with other business groups within the Ministry, but also externally with stakeholders, tangata whenua, fisheries planning groups, fishers' forums, research organisations, and other government departments. A key component is convening and chairing the Aquatic Environment Working Group which reviews a very wide variety of research projects and results including, *inter alia*, research on protected species (especially marine mammals and seabirds) in relation to fisheries impacts. The material under review is often complex and highly uncertain, a combination that encourages interest-group advocacy and tense, high-conflict discussions. My role also includes participation in the management of research portfolios for stock assessment (especially for shellfish) and recreational fisheries, and general science advice on aquatic environment, marine biodiversity, and fisheries assessment issues within the Ministry. I am also active in inter-departmental and international science issues, including developing investment signals and guidance for MBIE, working on the National Marine Research Strategy, developing the "whole of government" Oceans Survey 20/20 programme, and representing New Zealand at the South Pacific Regional Fisheries Management Organisation and the Agreement on the Conservation of Albatrosses and Petrels. I sit on a variety of advisory panels across government and internationally. I periodically acted in the Level-2 roles of Chief Scientist and Deputy Chief Executive at MFish, and have several times acted as Director of Fisheries Management for MPI.

LIST OF PUBLICATIONS

This list includes some peer-reviewed "grey literature" but excludes various unpublished series administered by MAF Fisheries, the Ministry of Fisheries, and the Ministry for Primary Industries such as Research Progress Reports, Final Research Reports and Client Reports (totalling roughly 15 per year between 1995 and 2005), Voyage Programmes, Voyage Reports, unpublished conference proceedings, lectures and seminar series.
